

'Alligator' Road Barriers

- Modular system enabling barriers from 42 cm to infinite meters long
- Currently under evaluation for EN1317-2: T1&T2
- Anti Wind system, enabling extra stability in high wind
- Modules are lightweight when empty for easy installation
- Modules are stable when linked to each other empty
- Very heavy when filled with water or sand for extra stability
- Easy fill ports (63mm) and drain ports (19mm)
- High UV and chemical stabilization
- Easy to stack, store and transport
- LED lamps can be installed on to barriers
- Hinged joint can be turned up to 120°
- Made from 'Treated' HDPE
- Will not deform or crack in hot or cold climates
- Available in red and white
- Other colours available on request
- High friction base to prevent road creeping
- Excellent shock absorb properties
- Will accept display banners for advertising
- Unique easy locking system
- Eliminates crane and boom truck
- Two people can set up 65m in under 30min
- All parts are reusable and recyclable
